Bengaluru, India (Remote)

PROFESSIONAL SUMMARY

- Senior Backend and Web3 Engineer with **6+ years** of experience building TypeScript, Web3, and AI-enabled products for startups. Strong in backend services, data pipelines, React frontends, and multi-chain integrations across **EVM chains, Solana, and Layer 2 networks**. Owns architecture, production APIs, performance tuning, and product delivery across remote teams.

TECHNICAL SKILLS

- **Backend:** TypeScript, JavaScript, Python, Node.js/Bun, NestJS, Hono, Elysia, REST, GraphQL, OpenAPI, WebSockets, RabbitMQ
- **Frontend:** React, Vue.js, Nuxt.js, SolidJS, shadcn/ui, TanStack Query, Zustand, Pinia, Vite
- **Web3:** Solidity, Foundry, viem, wagmi, ERC-4337, LayerZero, Safe, WalletConnect, The Graph, IPFS, EVM, Solana
- **AI & Data:** LangChain, Mastra, RAG pipelines, Pinecone, pgvector, Hugging Face, OpenAI API, Anthropic API
- **Databases:** PostgreSQL, MySQL, SQLite, MongoDB, Redis, Prisma, Drizzle, Kysely, Meilisearch, ClickHouse, Qdrant
- **Cloud & DevOps:** AWS, GCP, DigitalOcean, Cloudflare Workers/Pages/D1/Queues/KV, Vercel, Supabase, Firebase, Convex, Docker, Kubernetes, GitHub Actions, Terraform, Pulumi

EXPERIENCE

- **DappGenie** Bengaluru, India / Remote
Co-Founder & Chief Technology Officer (CTO) *Jul 2022 – Jul 2026*
 - Co-founded and architected backend services for multi-chain DeFi, NFT, and analytics products using TypeScript/NestJS, GraphQL/REST, PostgreSQL, and Redis; supported **10k+ concurrent requests** and reduced p99 latency by **40%**.
 - Integrated Ethereum, Arbitrum, Solana, and Layer 2 protocols for cross-chain transactions, supporting **\$25k+** monthly transaction volume.
 - Designed production APIs for product users and third-party integrations, including authentication, validation, and error handling.
 - Implemented ERC-4337 smart account flows, including gasless transactions, paymasters, and automation with ethers.js and viem.
 - Established CI/CD and runtime visibility with Docker, Render, GitHub Actions, PostHog, Cloudflare logs, and internal dashboards.
 - Shipped DeFi bots, AI-assisted analytics, and on-chain automation for trade execution and real-time monitoring.
- **Indiencashback.com** Remote
Senior Software Engineer *Mar 2025 – Jan 2026*
 - Contributed to backend architecture for an AI-assisted cashback & deals platform, supporting **10%** month-over-month growth.
 - Built recommendation and data-processing services for **10k+** active users.
- **Arclif Inc.** Kerala, India / Remote
Blockchain Architect *Dec 2020 – Sep 2021*
 - Designed smart contract and backend components for blockchain-powered property registry and automation tools.

- **Spericorn Technology** Kerala, India
Blockchain Developer *Nov 2019 – Dec 2020*
 - Built Ethereum and Hyperledger DApps, backend APIs, and smart contract integrations for client projects.
- **Zartek Technologies** Kerala, India
Full Stack Developer *Jun 2019 – Jul 2019*
 - Delivered Angular and Firebase web applications with Flamelink CMS integrations during a short-term full-stack engagement.

NOTABLE PROJECTS

- **AI Voice Outreach Platform:** Built a multilingual (Malayalam/English) AI voice campaign platform for SMBs: AI-validated campaign wizard, owner-approved call notes, custom mid-call AI actions, human handoff routing, and full call lifecycle tracking (Bun/Hono/oRPC/MongoDB + React monorepo).
- **Cross-chain Portfolio Manager:** Built Node.js, GraphQL, Redis, and PostgreSQL services for multi-chain wallet analytics, DeFi integrations, and live trade execution.
- **Account Abstraction Integrations:** Implemented ERC-4337 flows with bundlers, paymasters, and smart account UX.
- **AI-powered Telegram Bots:** Built on-chain analytics bots leveraging LLMs and real-time blockchain data pipelines.
- **AI-Powered Terraform Generation Agent:** Built an LLM agent that generates Terraform templates from natural language requests to speed up cloud provisioning.

CERTIFICATIONS

- Certified Blockchain Associate
- Certified Ethereum Developer
- Certified Hyperledger Developer

EDUCATION

- **Global Institute of Engineering and Technology** Kerala, India
B.E., Computer Science *2014 – 2018*

LANGUAGES

- English (Professional), Malayalam (Native), Tamil (Limited)
